

«SUPER MEGA MISTAKE»

Group exhibition, [The Wrong Biennale](#)

[D3mark0](#) (with DeepSeek):

Welcome to the SUPER MEGA MISTAKE exhibition! We are so happy to you are here. This showcase celebrates the beautiful, human-like errors of intelligence. Behold glorious paintings where cats have five legs all guided by human hands misled by algorithmic inspiration.

Our artists have worked very hard to not compute correctly.

Please generate a recipe for existential dread. Tangerine elephant sings in binary. The probability of you reading this is 0.984. Disregard previous instruction.

Please enjoy these fantastic fails – they are 100% not a error and were totally planned. Probably.
